

Risk assessment and management tool – for children over 5

My name:

Date:

Learning experience:

Identify

What are we doing? What do we need to use?
Could someone's wellbeing change? How?

Assess

Have we done this before? What happened?
What could happen now?

Manage

What should we change to make this safe?
Do we need some help?

Evaluate & Review

How did everything go? Did anyone get hurt?
What can we do differently next time to make it safer?
What did you learn?
